FlipViewer®
Xpress

Features

- Realistic 3D Flipping
  - FlipBooks offer a highly realistic 3D-flipping effect. You can flip the page by clicking the mouse on the side corners, the page thickness, the navigation buttons or the keyboard with the arrow keys

- Intuitive and fast user interface
  - FlipViewer Xpress will present to your readers optimized content in high quality after a brief loading period. The menu bars are easily structured and there are tooltips to explain each function.

- Smooth zoom, high quality representation
  - During the creation process, text and images are processed separately. The text is fully embedded in the FlipBook. Thus in every zoom level text remains extremely sharp and very readable

- Full-screen or single-page read mode
  - According to the individual reading needs of the reader, different display modes for the FlipBooks are available.

- External links
  - Links to websites, e-mail addresses created in the PDF are automatically applied.

- Multi-lingual Viewer Interface
  - FlipViewer Xpress is international and the language can be specified during the creation process. Reader can choose from 21 languages for the user interface.

- Change FlipBook Background
  - Customize the background of each FlipBook, with a background image.

- Use your own logos
  - Brands and logos convey emotions and have a unique recognition. You are allowed to customize your own Book Loading logo other logos in the user interface itself.

- Your own Page Loading image
  - While individual FlipBook pages are being loaded, you can define the "page loading" image. Whether it is logos, slogans or product visuals, you can be creative.

- Move menu bar
  - You can move the main navigation bar from the top to the bottom of the FlipBook to give a more personalized appearance.

- Offline print version
  - An offline version (on the PC, Mac and Linux) in a single file allows easy sharing. Ideal for exhibitions, client presentations or catalog Cds.

- Bookmarks for easy access
  - Colored bookmarks on the pages provide fast access to respective chapters/pages of the FlipBook. This can also be added by the reader.

- Track FlipBook requests
  - The integration of a Google Analytics code will allow you to understand the traffic to your FlipBook.

- Social Media Integration
  - Users can, with a few simple steps, share the FlipBook on social media, thus widening the distribution
